Officers of Board of Trustees

Rev. John A. Wilson, D. D. L.L. D., Pittsburg, Pa....President

Rev. John Downie, New Concord, O.....Secretary

L. J. Graham, New Concord, O.....Treasurer

Executive Committee

Rev. J. Knox Montgomery, D. D. Chairman,
Prof. S. H. Maharry,
Rev. J. S. McMunn,
Silas B. Yost,
J. M. Brown.

Finance Committee

Rev. J. Knox Montgomery, D. D., Chairman,
Benjamin Marshall,
A. C. Jamison,
O. M. Shipley.

Visiting Committee

Rev. J. T. Campbell,
Rev. G. W. Hamilton, D. D.
Rev. J. T. Caldwell,
O. M. Shipley.

Committee on Special Departments

Pres. J. Knox Montgomery,
Rev. David Livingston,
Rev. Charles P. Proudfit.

Faculty

JOHN KNOX MONTGOMERY, D. D. President.
Professor of Biblical Science.

JOHN ALEXANDER GRAY, A. M. Ph. D.
Professor of Mathematics and Logic.

THOMAS HOSACK PADEN, A. M.
Professor of Latin and Political Science.

LEONARD JOHNSON GRAHAM, A. M.
Professor of English Language and Literature.

CHESTER JOSEPH MARSHALL, A. M.
Professor of Physics.

ALEXANDER HOLLAND WRIGHT, A. M.
Professor of Chemistry and Biology.

HOWARD MCDONALD, A. B.
Professor of Greek and Philosophy.

MISS MARY SHARP, A. M.
Instructor in French and German.

MARY ADELIA LORIMER, B. S.
Instructor in English and Latin.

*THOMAS ELMER TROTT, B. S.
Instructor in Preparatory Department.

JAMES BURRETTE PYLE.
Assistant in Preparatory.

WILLIAM RENWICK LOWERY.
Assistant Instructor in Mathematics.

*Resigned.

EDNA HANES, A. B.
Assistant Instructor in Latin.

JOHN G. LOWERY, B. S.
Instructor in Pedagogy.

REV. C. M. RITCHIE
Assistant in Bible

ARTHUR WILLERTON.
Assistant in Chemical Laboratory.

ELBERT RAYMOND MOSES, B. L.
Professor of Oratory and Expression.

CHARLES S. WENGERD
Director of the Conservatory of Music.
Teacher of Voice, Piano, Harmony, etc.

MABEL MARTHA MOORE.
Teacher of Piano.

NORAH BLANCHE ROBINETT.
Teacher of Violin.

*MRS. EVA HUMMER HULL.
Teacher of Piano and Violin.

SARA ALLISON GRAY, B. S.
Instructor in Art.

LEWIS GERARD COFFEY AND SYLVESTER C. BRITTON.
Instructors in Commerical Department.

EDWARD N. F. DEWITT.
Physical Director.

JOHN P. FARSON, M. D., Ohio Medical University.
Football Coach.

MAE MCCONAGHA AND GRACE MCCREARY.
Librarians.

Officers of the Faculty

J. Knox Montgomery, D. D.....President

Thos. H. Paden.....Secretary

Standing Committees of the Faculty

Registration and Classification—Professors Paden, McDonald and Marshall.

Rules and Regulation—Professors Wright, Gray and Sharp.

Athletics and Gymnasium—Professors McDonald, Graham and Lorimer.

Library—Professors Marshall and Wright.

Lectures and Public Exercises—Professors Gray and Graham.

Examinations and Reports—Professors Paden, Marshall and Lowery.

Student Affairs—Professors Wright, Lorimer and Lowery.

College and Student Publications—Professors Graham and Paden.

The President is Ex-Officio member of all committees.

Janitor—G. Cameron McConagha.

Assistant—A. L. Yarnell.

Lectures, Sermons, Recitals, Receptions, Etc.

1907

September 17.—Opening Exercises of Fall Term.
September 26.—Lecture by Rev. W. S. Sweet, of China.
September 29.—Chapel Sermon.
September 30.—Reception to Faculty and Students by the Christian Associations.
October 3.—Lecture by Rev. R. W. Nairn, of Zanesville.
October 8.—Zeigler-Howe Orchestra.
October 10.—Lecture by Dr. Donald M. Ross, of Zanesville.
October 15.—Reception to Students by Pres. and Mrs. Montgomery.
October 17.—Lecture by Robert I. Fulton, of Ohio Weslyan University.
October 24.—Lecture by Rev. E. L. Porter, of India.
October 31.—Lecture by Rev. E. M. Giffen, of Egypt.
November 3.—Chapel Sermon.
November 7.—James Ball Naylor, Recital.
November 20.—Recital by the Oratory Department.
December 1.—Chapel Sermon.
December 7.—Recital by the Conservatory.
December 8.—Ralph Bingham, Entertainer.
December 12.—Address by Mrs. E. M. Hill, of Pittsburg.
December 16.—Address by Rev. R. A. Hutchison, D. D. Pittsburg.

1908

January 7.—Opening Exercises of Winter Term.
January 12.—Chapel Sermon.

January 16.—Address by the President.
January 23.—Address by Prof. J. A. Gray.
January 30.—Lecture, Gen. R. B. Brown, Zanesville.
February 6.—Address by Prof. T. H. Paden.
February 9.—Chapel Sermon.
February 13.—Lecture, Rev. J. H. Martin, of India.
February 17.—Lecture, Edward Burton McDowell.
February 20.—Address, Prof. L. J. Graham.
March 5.—Lecture, DeWitt Miller.
March 6.—Preliminary Debate.
March 9.—Adrian Newens, Monologist.
March 12.—Address, Prof. C. J. Marshall.
March 19.—Address, Prof. Howard McDonald.
March 20.—Recital by the Choral Society.
April 1.—Opening Exercises of Spring Term.
April 4.—Reception to Students by Christian Associations.
April 5.—Evangelistic Services began, conducted by Dr. W. W. Orr, of Charlotte, N. C.
April 9.—Address by Prof. A. H. Wright.
April 16.—Address by Rev. Mr. Staub, Traveling Secretary for Student Volunteer movement.
April 23.—Bible Reading Contest.
April 27.—Address by Miss Mary J. Campbell, of India.
May 10.—Chapel Sermon.
May 14.—Prof. E. R. Moses, Monologue, The Sky Pilot.
May 26.—Inter-Collegiate Debate with Mt. Union.
June 4.—Recital of Conservatory.
June 5.—Reception and Banquet in honor of the Senior Class by President and Mrs. Montgomery.
June 6.—Recital of Department of Expression.

General Information

HISTORY AND AIM.

In 1836 the first steps were taken by the people of New Concord to establish a Christian institute of learning. In 1837 Muskingum College was chartered under the laws of the state of Ohio. In 1877 the formal control of the College was transferred to the United Presbyterian Presbyteries of Muskingum and Mansfield. In 1883 the United Presbyterian Synod of Ohio took formal control of the institution. These tranfers have largely increased her constituency and made her the representative of higher education for a Christian body having a large membership in Eastern and Northern Ohio, Michigan and West Virginia. But, though Muskingum is under denominational care and control, she offers advantages to all on absolutely equal terms.

Her aim is to give thorough training. The college idea should be culture—the production of the best manhood and womanhood. And this does not require that utility be lost sight of, but only that it be held in proper relation. For young people the studies which are called "practical" are after all more useful for their discipline than for their direct contribution to skill in the callings of life. Muskingum, therefore, strives to be *a good college, not a poor university*. She concentrates all her effort, so far as studies are concerned, on the preparation of young men and women to receive the bachelor's degree, and her good reputation for undergraduate work has proved her wisdom.

THE LOCATION

The college is located at New Concord, Ohio, on the main line of the B. & O. Railroad, two hours east of Columbus, Ohio,

and four hours and forty minutes west of Pittsburg, Pa. Connections at Pittsburg, Wheeling, Bellaire, Columbus, Zanesville, Newark, Mt. Vernon, Mansfield, Cincinnatti and many other points make New Concord very easy of access.

The town supports five churches and has no saloon.

The healthfulness of the place, the moral and religious character of its people and its freedom from temptation make it a most desirable place for the student.

BUILDINGS.

Muskingum has four good buildings, three of them new, the other remodeled so thoroughly as to be practically new. These buildings are heated by steam and are lighted with the brilliant acetylene gas light. A system of water works has been arranged so as to furnish water for laboratories, toilet and bath rooms. In short the buildings are modern buildings, well equipped for all college purposes.

Recitation Hall has six large recitation rooms, beside three rooms used for laboratory purposes.

The Main College Building is of pressed brick three stories high including basement. The length is one hundred and twenty-four feet, the depth sixty feet. The basement floor will accomodate, besides storage rooms, five recitation rooms of ample size and well lighted by windows six feet high, all above ground.

The main floor contains a chapel room which, by opening two recitation rooms in the rear, will seat 500 people. This floor contains also music rooms, the president's office, two large recitation rooms and a library 43 by 34 feet. There are three cloak rooms on this floor.

The second floor contains a recitation room and three halls for the literary societies. To each of these rooms a cloak room is attached.

Alumni Gymnasium is a substantial brick structure. It contains an exercise room of ample size, the physical director's office, the dressing and locker room, and the bath room. The building is heated by steam, lighted by acetylene gas and well

ventilated. The apparatus bought is of the best quality, and of such selection as to minister best to the physical needs of the students.

The President's Manse is an elegant twelve room house, with all modern conveniences, splendidly adapted to its purpose.

ATHLETIC FIELD.

Few colleges are better equipped than Muskingum for conserving and developing physical health and strength.

A good athletic field, well graded and drained, affords students an opportunity for out door exercise and sports.

DEPARTMENTS.

Besides the College proper and the Preparatory School, there are the Music, Elocution, Oratory and Art Departments, besides the Commercial.

In the College proper three courses of study are offered; the Classical, leading to the degree of B. A., the Scientific. leading to a degree of B. S., and the Literary, leading to the degree of B. L. There is also a Teachers' Course. These courses of study are outlined and described elsewhere in this catalogue.

The work of the Preparatory school is so planned as to prepare the student for entering the College courses. Many students could enter the Collegiate courses to much better advantage by taking at least the last year of their preparatory work here rather than elsewhere. Information concerning the work in the Music, Elocution and Art Departments will be found in another place.

CO-EDUCATION.

Young ladies are admitted to all departments of the College on the same terms as the young men. It is believed that the association of young men and women contributes to the best culture and development of both.

ADMISSION.

1. If the applicant is not known to some member of the Faculty he should bring certificates of good character.

2. (1) An applicant from another college of good standing will be given, without examination, the rank in the College to which the work he has done entitles him. He should bring a certificate of honorable dismissal, stating to what class he belonged, together with a copy of the course he was pursuing.

(2) Applicants from accredited high schools and academies whose work the Faculty may accept, will be given credit without examination for the amount of work they have done. They should bring certificates showing the studies pursued, the time given to each, the text-books used, the exact amount of ground covered in each, and the grades earned. Blanks will be furnished to those desiring them.

(3) Applicants who are not included under (1) and (2) but who hold teacher's certificates, are requested to bring them. These will be used to determine the extent and nature of the examinations required.

(4) All others will have their standing determined by examination.

For specific subjects and amount of work required for admission to the Freshman class see scheme of studies in Preparatory Department.

CREDITS.

For full admission to the Freshman class without conditions fifteen (15) credits must be presented. One credit will be given for a study pursued successfully in any approved preparatory school for one school year with four hour or five three-quarter hour recitations per week. A certificate signed by the principal or superintendent will be accepted in giving such credit, or the candidate may submit to examination in any subject. Students who cannot present the fifteen credits required for the full admission may enter with certain conditions. These can be made up in the Preparatory Department or the Summer School. Attention is particularly called to the latter as an excellent place to remove entrance conditions or to gain time in one's high school or college course. Those whose preparation has been irregular are given special facilities in making up their deficiencies. The

fifteen credits required for full admission must include the following ten:

Mathematics, (must include Algebra)	2
English	3
Latin	3
History	1
Science, (Physics preferred)	1
	10

The remaining five credits may be supplied from the following list:

TABLE OF CREDITS ALLOWED.

English Composition and Rhetoric	2	4
English Classics	1	
English Literature	1	
Latin	3 to 4	7
Greek	1 to 3	
German	1 to 3	
French	1 to 3	
History, General	1	2
History, Greek and Roman	1	
History, English	1	
History, United States and Civics	1	
Algebra	1½	3½
Plane Geometry	1	
Solid Geometry	½	
Trigonometry	½	
Physics	1	2
Chemistry	1	
Physiography	½	
Botany	½	
Zoology	½	
Geology	½	
Astronomy	½	

Political Economy	½	I-2
Psychology	½	

In explanation of the above table note that only fifteen (15) out of the above thirty (30) credits are required for admission. Also note that while four credits will be given for Latin three for Greek and three for French if presented separately, only seven credits will be allowed in this language group out of the total of 15, and the same is true in the other cases.

ENGLISH ENTRANCE REQUIREMENTS.

Readings prescribed by the Joint Conference of the College and Secondary schools for entrance to the Freshman Class are as follows:

REQUIRED FOR CAREFUL STUDY.

Burke's Speech on Conciliation with America—1908.
Macaulay's Essay on Addison—1908.
Macaulay's Essay on Boswell's Johnson—1908.
Milton's Minor Poems—1908.
Shakespeare's Julius Caesar—1908.

REQUIRED FOR GENERAL READING.

Addison's The Sir Roger de Coverly Papers—1908.
Coleridge's The Ancient Mariner—1908.
Eliot's Silas Marner—1908.
Irving's Life of Goldsmith—1908.
Lowell's Vision of Sir Launfal—1908.
Scott's Ivanhoe—1908.
Scott's Lady of the Lake—1908.
Shakespeare's Macbeth—1908.
Shakespeare's Merchant of Venice—1908.
Tennyson's Gareth and Lynett, Lancelot and Elaine, and Passing of Arthur—1908.

1909-1911—READING AND PRACTICE.

GROUP I.—(*Two to be selected*)

Shakespeare's As You Like It.

Shakespeare's Henry V.
Shakespeare's Julius Caesar.
Shakespeare's The Merchant of Venice.
Shakespeare's Twelfth Night.

GROUP II.—(*One to be selected*)

Addison's Sir Roger de Coverly Papers.
Franklin's Autobiography.

GROUP III.—(*One to be selected*)

Chaucer's Prologue.
Pope's Rape of the Lock.
Goldsmith's The Deserted Villiage.

GROUP IV.—(*Two to be selected*)

Goldsmith's The Vicar of Wakefield.
George Eliot's Silas Marner.
Scott's Ivanhoe.
Dicken's Tale of Two Cities.
Scott's Quentin Durward.

GROUP V.—(*Two to be selected*)

Irving's Sketch Book—Selections.
Emerson's Selected Essays.

GROUP VI.—(*Two to be selected*)

Coleridge's Rime of the Ancient Mariner.
Scott's Lady of the Lake.
Macaulay's Lays of Ancient Rome.
Arnold's Sohrab and Rustum.
Tennyson's Gareth and Lynette, Lancelot and Elaine, and The Passing of Arthur.

STUDY AND PRACTICE.

Shakespeare's Macbeth.
Milton's Minor Poems: L'Allegro, Il Peneroso, Comus, and Lycidas.

Burke's speech of Conciliation with America.

OR

Washington's Farewell Address and Webster's First Bunker Hill Oration.

Macaulay's Life of Johnson.

OR

Carlyle's Essay on Burns.

The form of examination will usually be the writing of a paragraph or two on each of several topics, to be chosen by the candidate from a considerable number—perhaps ten or fifteen —set before him in the examination paper. The treatment of these topics is designed to test the candidate's power of clear and accurate expression, and will call for only a general knowledge of the substance of the books. In every case, knowledge of the book will be regarded as less important than the ability to write good English.

Candidates should read the books prescribed for the year in which they purpose to present themselves for this part of the examination.

GOVERNMENT AND DISCIPLINE.

The aim is to govern as little as possible yet as much as is needed. The students are taught, encouraged and assisted in self-government. Discipline looks always toward the strengthening of the student's self-respect and sense of personal responsibility. The cases where this method fails are rare.

Whenever a student is known to be unfit to remain in College he will be dismissed.

The statutes of the Board expressly forbid profanity, the use of intoxicating liquors and tobacco.

GYMNASIUM REQUIREMENTS.

Having a care for the physical development of our students attendance upon the gymnasium classes is required of all the students. This work is under the supervision of competent Physical Directors. Classes meet twice a week from Oct. 15 to

March 15th. The Director will keep a record and report all unexcused absences to the Faculty.

ABSENCE FROM CHAPEL AND CLASS.

Absences are counted from the opening of the term until the student enrolls. Care should be taken to be present the first day of the term. Unless satisfactory excuses be offered for these absences they will count against the student the same as other unexcused absences. Absence from class entails intellectual loss that can only be made up by special work.

When the number of absences in any department reaches six within a single term a special examination will be required in that subject.

When the number of unexcused absences reaches five in any one department or ten in all departments, within the year, the student will be cited to appear before the faculty.

Five unexcused absences from chapel will be sufficient cause for the student being cited to appear before the faculty.

ENROLLMENT AND REGISTRATION.

No student will be enrolled in any class until all term bills have been paid. His registration card must be signed by the President and Treasurer as evidence of this. For each registration card issued after the first Wednesday of each term an extra fee of one dollar will be required.

Registration for the Winter and Spring terms will be on such days before the close of the term as are designated by the Faculty. Students neglecting to register at the appointed time will be required to pay a fee of one dollar.

EXAMINATION.

When the student enters, his rank with his deficits and credits is entered on the records. From this time on an accurate entry is made of his work each term, the grade both in recitation and examination being recorded. Grading is on the scale of 100. A grade of less than 70 in recitation will not entitle the student to final term examination with his class, and the study must be taken

again. If the student earns less than 65 in examination, he will be required to review privately and take another examination, or take the study again, at the discretion of the professor in charge. Students making a term grade of 90 may be excused from examination provided they have no unexcused absences and not more than three excused absences.

Examinations of classes are held at the close of each term. No student who omits attendance upon examination in any branch at the appointed time will receive a grade in the study or be regarded as having completed it until the examination is taken. In any such case the student must present his reason for absence unless he has obtained previous permission to postpone his examination. If the reasons are satisfactory, written permission will be given to have a special examination. This permission, together with the receipt of the Treasurer for the fee of one dollar, must be presented to the Professor, and the examination will be given. Where absence at the time of the class examination was caused by sickness, no fee will be charged.

The Senior examination takes place four weeks before commencement, and may cover the studies of the Senior year.

A report of the class and examination grades in each study is sent to the parent or guardian at the close of each term.

CLASSIFICATION OF STUDENTS.

A student may be admitted to Freshman rank who is not conditioned in more than two units, a unit being considered four or five recitations a week for one school year. Students having twenty-four hours college credit and all entrance requirements off or the equivalent may be ranked Sophomore. Students having seventy-two hours college credit and all entrance requirements off, or the equivalent, may be ranked Juniors. All students who are entered for sufficient work to bring total credits to one hundred and eighty hours, and who have all entrance requirements off, are ranked Seniors.

SPECIAL COLLEGE STUDENTS.

The effort is to have each student in the college become a can-

didate for some degree and to take a regular course. But for various reasons some may be unable to take a full college course. Hence special college students are those who are not candidates for any college degree. To this list are eligible those who, in addition to their work in the department of Music or Art, desire to carry some college work; also those who come to the College to pursue special studies.

Special students may become candidates for a degree upon a vote of the Faculty. Upon application they will be given a certificate of the amount of work accomplished.

AMOUNT OF WORK.

The subjects pursued in College are offered in courses of study, and credits for work accomplished are given in hours. By an hour is meant one recitation a week throughout a term. Seventeen hours recitation a week is the regular work of a student. No student in the College department may be enrolled for more than seventeen credit hours work unless he receives a grade of ninety in one half of the work of the preceeding term, and no grade lower than eighty in the remainder.

LITERARY SOCIETIES.

Excellent opportunity for literary improvement and parliamentary training is afforded by the Societies of the College. There are three—the *Aretean,* sustained by the young women and the *Union Literary and the Philomathean,* sustained by the young men. These Societies do excellent work, a work justly regarded on all hands as of great importance. Every student is required to join one of them. Habitual neglect of the Literary Society work will be regarded just as neglect of any other required work. Provision will be made for those who cannot, for any reason, join one of the Societies.

RELIGIOUS LIFE AND WORK.

While the College is denominational, it is in no sense sectarian. All denominations are represented in the student body and four in the Faculty. Attendance upon the daily chapel exercises

is compulsory. Students are also required to attend the services of the church of their choice upon the Sabbath, regularity in this being insisted upon. Once a month the President preaches to the student body in the College chapel. Attendance upon this service is required.

CHRISTIAN ASSOCIATIONS.

The Young Men's Christian Association and the Young Women's Christian Association hold meetings every week for conference and prayer. Frequently they meet together for devotional purposes. The religious influence of the College is such that very few of the students remain outside of church membership. Seven volunteer Bible Study classes are conducted by the Associations, and as many mission study classes.

Under the direction of these Societies the students, members of the Faculty and friends of the College assist in supporting a missionary, a graduate of Muskingum, in a foreign field. Contributions are entirely voluntary.

ORATORICAL ASSOCIATION.

Muskingum College is a member of the Tri-State Inter-Collegiate Oratorical Association, which includes in its membership besides Muskingum several colleges in western Pennsylvania and West Virginia. The local association is organized for the purpose of promoting oratory among the students and to manage preliminary contests for the choice of contestants in the Tri-State contests.

THE BLACK AND MAGENTA.

This monthly magazine is published by a company of students and professors. Its object is to keep the Alumni and friends of the College in touch with its progress and work.

The company publishes nine numbers during the academic year.

THE MUSCOLJUAN.

The Junior Class of the College publishes an annual during the spring term of each year. Besides cuts of the college buildings, different classes and organizations, these annuals contain literary productions and accounts of all events of importance taking place during the college year.

LIBRARY.

The room provided in the Main College building is well lighted and ventilated, and about three times as large as the room formerly used. New furniture has been added, and more will be supplied as may be necessary.

All the libraries about the College are now collected in the College Library. By purchase, donation and bequest the number has been increased to 4,000 bound volumes, besides a large number of magazines and pamphlets.

Substantial additions have been made to the library during the past year. 500 volumes of choice books were purchased in March. Some liberal and valuable donations have been made, chief among these being the library of the late Samuel Harper of New Concord.

The students make diligent use of the library. The reading room and reading matter are under careful regulations, which are cheerfully observed. There is provision for a regular increase in the number of books, selections being carefully made to meet the needs of the students.

The Library room is also used as a reading room. The best periodicals and papers are kept constantly on the tables, and every effort is made to furnish the student information on current events.

The room is open to students every week-day, free.

APPARATUS.

There is provision for a steady increase of facilities for work in the sciences. Five hundred dollars was spent in the physical laboratory this year for apparatus. The patrons of the College

may be assured that every effort will be made to bring these facilities up to the requirements of modern teaching in science.

Of the Chemical apparatus it may be correctly said that its amount and variety are sufficient to illustrate all the Chemistry required in ordinary College courses, and to give all the original Laboratory work required in such courses.

For work in Biology each student has the use of a simple and compound microscope for plant analysis and study of cell structure. About $500 will be spent this summer in the chemical and biological laboratories.

Equipment of instruments for dissections in Zoology and Botany are for the use of each student.

Mention may be made also of a set of Surveying instruments, of specimens useful in the study of Geology, and of various maps and charts for the use of students in Physiography, Physiology, Geology, History and other studies.

EXPENSES.

The charges made by the College are: (1) Tuition; (2) Laboratory fee; (3) Gymnasium and Athletic fee; (4) Graduation fee.

COLLEGE

Tuition for the Fall term.....$16 00
Tuition for the Winter term..... 14 50
Tuition for the Spring term..... 14 50

Students desiring to take over eighteen hours work will be charged extra at the rate of one dollar per hour per term.

Students of the Sophomore year will pay a fee for oratory and argumentation of $3.00 for the fall term and $2.50 each for the Winter and Spring terms.

PREPARATORY

Tuition for the Fall term.....$15 00
Tuition for the Winter term..... 13 00
Tuition for the Spring term..... 13 00

Students desiring to take more than twenty-one hours will

be charged seventy-five cents an hour extra per term. No extra charge, however, will be made for the common branches in the Teacher's Course.

Gymnasium and Athletic Fee—A fee of one dollar each term will be required of all the students connected with any department of the institution.

Laboratory Fees—Each student in preparatory Physics pays one dollar per term. Each student in Chemistry pays two dollars per term. Students in College Physics pay one dollar and fifty cents each term for the first three terms and two dollars per term for the last two. The fee in Botany and Zoology is one dollar per term for each study, and in Biology one dollar and fifty cents per term.

Graduation Fee—A fee of $5.00 will be required of each Senior, payable to the Treasurer with the Spring Term Tuition.

The rules of the Board require that no student shall be enrolled until his tuition for the term is paid.

No student will be received ordinarily for less than half a session, nor will any student ever be excused, for any reason whatever, from paying one-half the tuition of any session in which he has entered College.

When absence is caused by protracted illness, or anything else purely providential a proper reduction will be made, unless the student retains his standing in class. In such cases no reduction will be made for any reason. Tuition and terms of admission in other departments will be found elsewhere.

Children of ministers of all denominations are required to pay but half the tuition in the Preparatory and College Courses. No reduction is made in the Summer School or Special Departments.

ESTIMATE OF NECESSARY EXPENSES FOR A YEAR.

Tuition	$41 00 to $50 00
Rent for furnished rooms	19 00 to 23 00
Cooking	22 00 to 28 00
Provisions	50 00 to 70 00
Fuel and Light	6 00 to 10 00
Books for the year	8 00 to 14 00
Total	$146 00 to $195 00

Without doubt many students spend $200 a year without feeling that they are extravagant. Yet it is a fact *that the total expenditure of some for a year of thirty-eight weeks has been less than $150 00, this including even railroad expenses to and from College.*

In estimating the cost of a College education it should be remembered that it costs something to live at home. Students sometimes report that their incidental personal expenses are smaller here than at their homes.

Some students reduce expenses further by boarding themselves.

BUREAU OF SELF-HELP.

A bureau of self help has been established for the purpose of assisting young men and women who are working their way.

THE MASTER'S DEGREE.

There was formerly a rule of this institution that the Master's Degree in course be conferred on graduates of the College of three year's standing who belonged to one of the learned professions or were engaged in teaching. At its annual meeting on June 23, 1897, the Board of Trustees took the following action:

1. "Hereafter the Master's Degree shall not be conferred in course, but on personal application. The faculty shall adopt rules for their own direction in determining the fitness of the applicant to receive the degree. A diploma shall be given to the person on whom the degree is conferred, for which a uniform fee of ten dollars shall be charged.

2. In no case shall any higher degree be conferred on one who has not taken the Bachelor's Degree at some reputable College.

Two years non-resident work under the direction of the Faculty, or one year resident work and a thesis satisfactory to the Faculty will be required of applicants for this degree.

CONTEST PRIZES.

Friends of the College have made provision for the following prizes in Oratory, Debate and Bible Rendition:

1. The Brown Prizes.—For several years Mr. J. M. Brown of Wheeling, W. Va., a member of the Board of Trustees and a staunch friend of the College, has given fifty dollars in prizes for efficiency in oratory. There are four prizes two each for ladies and gentlemen of $15 and $10 respectively.

II. The Garvin Prizes.—During the past year Hon. T. M. Garvin of Wheeling, W. Va., has offered fifty dollars in prizes to be awarded to those who make the first team in debate. The prize money is divided into three parts, $25.00, $15.00 and $10.00.

III. The Hanna Prizes.—Rev. A. J. Hanna, of Piper City, Ill., three years since established the Bible Rendition Prizes in memory of his son, Clyde, who had his heart set upon becoming a medical missionary and expected to attend Muskingum College. The first contest was held on April 19th, 1906, the second anniversary of his funeral. Nineteen young men and women participated in the first contest. The prizes are three, $7.00, $5.00 and $3.00.

These generous friends of the College and of Christian education are doing more than they yet realize as they in this way are helping to stimulate young men and women to their best efforts.

PRIZES DESIRED.

We would be glad to hear from other friends who would furnish prizes in Declamation, Essay, and highest scholarship in different departments.

SCHOLARSHIPS.

Hon. William Jennings Bryan has established a loan Scholarship in Muskingum College from the Philo Sherman Bennett Fund of which he is a trustee. This scholarship is loaned annually to worthy, poor young men without interest for a term of years. As the loans are paid in they are added to the principal of the Scholarship.

ROTARY SCHOLARSHIPS.

The College would earnestly commend to the friends of education our Rotary Scholarship plan for the aiding of worthy young men and women in straitened circumstances who are seeking to secure an education.

Briefly outlined the plan is as follows: Individuals or congregations will be given a scholarship on the payment of $50.00 a year for five years to the treasurer of the College, Prof. L. J. Graham, New Concord, Ohio. The donor, or if a congregation, the session, will have *the privilege of choosing* some poor but deserving young man or woman, *who could not otherwise attend college,* who will be designated as the beneficiary of this scholarship. The one consideration in the choice of the beneficiary that will be insisted upon by the College is that *he must be unable to attend college without this help* and must give evidence of being worthy of such aid. If there should be a number of such young people in a congregation owning a scholarship the session may make choice by competitive examination, questions for which will be furnished by the Faculty. Should the individual donor or the session of the congregation have no person available the Faculty will designate a beneficiary from the numerous applicants which are yearly before them. Full information regarding such Scholarships will be furnished on application.

The First U. P. church, Wheeling, W. Va., has the honor of establishing the first of these scholarships.

The college students have established the second.

THE MUSKINGUM LEAGUE.

This is an organization formed three years ago which is destined to make its power felt in the future history of the College. It is an association of alumni, faculty, trustees, students and friends of Muskingum College, whose members contribute a certain sum each year to improve, repair, equip, and complete the college "plant." Five hundred members of the *Muskingum League* would in a few years make the College, in material equipment and resources, not only abreast of our progressive

age, but worthy of our educational traditions as a denomination. Will you be one of the five hundred?

Those who have it in their heart to do something for the cause of Christian education and yet feel that they cannot make a contribution of any large sum will find an opportunity to do great good through the agency of the Muskingum League. Membership cards will be furnished on application.

THE MUSEUM.

Muskingum College should have had a valuable Museum at this stage of her history, considering her age and her widely scattered and influential Alumni, some of whom have obtained distinction as Archaeologists and Egyptologists. No special effort has been made in this direction. But the time has come for an advance. There is a good nucleus already. Recently Miss Josephine Martin, of Sialkot, India, made a large and valuable donation.

The College will very much appreciate any gifts that its friends may make to the Museum.

HONORS IN SCHOLARSHIP.

Honors in scholarship are recorded on the diplomas of the students winning them, and published on the commencement program.

Two classes of honors, designated respectively as honors (cum laude) and high honors (magna cum laude) are conferred at graduation upon students who satisfy the following conditions of scholarship:

Honors in general scholarship are awarded those students who have attained a grade of A in 100 hours a grade of B in 50 hours, and no grade lower than C in the total required for graduation.

High honors are awarded those students who have attained a grade of A in 150 hours of the total required for graduation, and no grade lower than B in the remainder.

HONOR STUDENTS '07.

MAGNA CUM LAUDE.

Angeline Brown	Sara Giffen.
Mary Jones.	John G. Lowery.

CUM LAUDE.

Otho McKinney.	C. Ellis Moore.
Lena Wilson.	W. Merton Aikin.

HONOR SYSTEM IN EXAMINATION.

Two years ago the sudent body took the initiative in the matter of the honor system in examinations. Their action was approved by the faculty and all written work in the class room as well as the regular examinations are conducted under this system. Each student writes and signs the following pledge upon his paper before handing it in:

"I pledge my honor as a gentleman (or lady, as the case may be) that I have neither received nor given aid during this examination."

A student council consisting of representatives from the different classes is organized to which any violation of honor is to be reported for their action.

REPORTS.

The report to parents of the grades of students is made in letters as follows, A, represents a grade of from 96 to 100. B, from 90 to 95. C, from 80 to 89. D, from 70 to 79. E, from 65 to 69. F, failure.

LECTURE COURSE.

A College Lecture Course of the best talent to be secured is presented each year. The talent already secured for next season includes: George R. Wendling, Strickland W. Gillilan, A. W. Lamar, D. D., the legitimate successor of Gen Gordon, and the Schildkret Hungarian Orchestra of eight pieces.

Besides this course there is a lecture on Thursday of each week either by some member of the Faculty or by some talent secured.

GIFTS.

The following persons and congregations have contributed to the different funds of the College during the past year:

Jesse Johnson,

Statement of Work in Various Depts.

DEPARTMENT OF BIBLICAL SCIENCE.

PRESIDENT J. KNOX MONTGOMERY.
ASSISTANT—REV. C. M. RITCHIE.

The aim of this department is to awaken in the student a love for the English Bible and give him a comprehensive view of its contents; to lead the student to appreciate the Bible as most interesting and profitable literature. The Bible itself is the principal textbook.

1. Its divine origin gives it a rank above all other books.
2. For mental training its infallible truths are superior to all mere human knowledge.
3. Its literature is the inspiration of all the world's best literature.
4. As history, it reveals God as the author of all things from the beginning.
5. It reveals God's methods in history for three thousand years.
6. It challenges the obeisance of all human thought and action.
7. It reveals the only perfect code of morals, and is the final test of all ethical philosophy.
8. It is the source of all spiritual life and growth when applied and sealed by the Holy Spirit, its divine author.

These propositions are assumed and acted upon at Mus-

kingum. Hence we make the Bible the text-book of all the classes, and we seek to make the Bible Course the unifying course of all sound learning.

1. We study the Bible itself and not books about the Bible. Few helps are used and these only so far as they aid in the study of the Bible itself.

2. We follow the historical thread from Genesis to Revelation.

3. We do not teach Systematic Theology, while we do emphasize the great fundamental truths of Revelation.

4. We do the same sort of drill work in the Bible classes as in other departments of study.

5. We assume the infallibility and inspired nature of the Book from the very beginning; we do not count it a common text-book.

6. We hold that no education is complete which has no comprehensive knowledge of divine truth to give complexion to all else.

DEPARTMENT OF POLITICAL PHILOSOPHY.

Prof. T. H. Paden.

The purpose of the course in Political Philosophy is that the student may master the first principles of the different departments of this science, and may study the application of these to the life of society. The following courses are offered:

I. Economics.—"Bullock's Introduction to the Study of Economics" will be used as the basis of the work in this course. Fall term of the Junior year, three hours a week.

II. Money.—The theory of money and the history of its circulation. Paper Money, especially a history of the different kinds of paper money in the United States. Winter term of the Junior year, three hours a week.

III. Sociology.—Small and Vincent's "Introduction to the Study of Society" is used as a basis in this study in connection

with Wright's "Practical Sociology." Spring term of the Junior year, three hours a week.

IV. Political Science.—A Study of the State—its origin, its forms and ends. A comparative study of the Constitutions and Constitutional Law of the four leading States of the world: Great Britain, Germany, France and the United States; Burgess' Vol. I, Sovereignty and Liberty, Christian Civil Government, McAllister. Fall term of the Senior year, three hours a week.

V. Comparative Politics; Municipal Government.—A study of the problems of modern municipalities and local governments, Goodnow and Shaw. Winter term of the Senior year, four hours a week.

VI. The Elements of International Law.—This course will be devoted to the study of the law of peace, the law of war and the law of neutrality. Spring term of the Senior year, three hours a week.

DEPARTMENT OF HISTORY.

Prof. T. H. Paden.
Assistants, Miss Mary Sharp and Prof. A. H. Wright.

I. History of England—The Political and Social History of England will be studied during the fall term of the Freshman year, four hours a week,—Montgomery.

II. History of Rome—The history of Ancient Rome will be studied in the Spring term of the Freshman year, three hours a week,—Abbott.

III. History of Greece—Winter term of Freshman year, three hours a week.

IV. Bible History—A general survey of Bible History will be given the spring term of the Sophomore year, three hours a week,—Blaikie.

V. Constitutional History of the United States—In this course attention will be given to the essentials of our civil development; the origin of our civil system, its principles, its

adaptation by amendment and construction, and its interpretation by the courts—Thorpe. Fall term of the Junior year, three hours a week.

VI. Constitutional History of England—The origin and development of English Institutions, the growth of the state from a monarchial state to an aristocratic one, and from that to a democratic state; the development of the formation of the British Constitution. Winter term of the Junior year, four hours a week.

VII. Financial History of the United States—This course is open to those who have some knowledge of the principles of Economics. The aim is briefly to go over the history of Federal Finance from the Colonial period down to the present time—Dewey's Financial History of the United State. Spring term of the Junior year, three hours a week.

DEPARTMENT OF PHILOSOPHY.

Prof. Howard McDonald.
Assistant, Prof. C. J. Marshall.

I. Ethics—Winter term of Junior year, three hours. The aim here is to ascertain the elements of the moral nature, the nature of virtue, and from these a correct theory of human duty. The wreck of the moral nature, as testified to by consciousness, is distinctly recognized, and various schemes of reconstruction are examined, and compared to find the true one. The theory of duty thus established is then applied to the discovery of duty in all the human relations. Library work on assigned topics.

II. Psychology—Four hours per week during the Fall and Winter terms of the Senior year. Text, James's Psychology (Briefer Course). Since self-knowledge is necessary to moral self-culture, to the highest appreciation of the best literature, and to an accurate knowledge of men and the ability to help them, the constant aim is to acquire the ability to know self. Required readings with reports.

III. Natural Theology—Three hours during Spring term of Senior year. The text book used is Valentine's Natural Theology. The object sought is to ascertain the existence and character of God by an appeal to reason and nature, all of the ordinary arguments receiving careful attention.

IV. History of Philosophy—This course is elective for Seniors, running four hours during the Winter term and three hours during the Spring term. Roger's Student's History of Philosophy is used as a text book. Topics are assigned for investigation and reports and theses are required.

V. Evidences of Christianity—The object of this course is to prove the authenticity of the Sacred Scriptures by an examination of the most generally accepted evidences. Senior, Fall term, three hours.

DEPARTMENT OF ENGLISH.

Prof. L. J. Graham.
Assistants, Prof. C. J. Marshall and Prof. E. R. Moses.

The aim of this department is to train the power of expressing thought and to cultivate a taste for good literature.

I. History of English Literature—The Spring term of the Freshman year is devoted to the study of historical outlines of English Literature—Reading out of class, reports and essays.

II. American Masterpieces—Selections from Irving, Bryant, Emerson, Poe, Hawthorne, Longfellow, Lowell, Whittier and Holmes are studied critically. Reports and essays on reading done out of class. Required of all freshmen. Winter term, three hours.

III. College Composition—This course consists of a vigorous practice in composition by daily and fortnightly themes. Class and individual consultation for criticism and instruction. Text book, Lamont. Prescribed for all freshmen. Spring term. Three hours.

IV. Study of Words—Text: "Study of Words" by Trench. Prescribed for sophomores of the literary course and

for the freshmen of the classical course. Fall term. Three hours.

V. English Masterpieces—A critical study of a selection of each from Spencer, Byron, Milton, Pope, Burns, Goldsmith and Wordsworth.. Attention is given to the development of literature by periods. Sophomore. Winter term. Three hours. Much reading out of class, reports and essays.

VI. Chaucer—The Prologue, The Knight's Tale, and others. A study of the language, manners, and life of his day. Sophomore. Spring term. Three hours.

VII. Epic Poetry—A critical study of Milton's "Paradise Lost" and Tennyson's "Idyls of the King." Other epic poems and some prose fiction are read outside the class and discussed in the class. Junior. Fall term. Three hours.

VIII. Advanced Rhetoric—This course provides for a study of the whole theory of effective discourse. Provision is also made for criticism and construction. Each student will prepare at least one thesis during the term for public recital. Junior, Winter term. Four hours.

IX. Dramatic Poetry—Special attention is given to the elements of the drama, to its origin and development. At least four of Shakespeare's dramas are to be read and studied in class. His life and his technique as an artist receive attention. Other dramas are read out of class. Junior. Spring term. Three hours.

X. Linguistics—Prof. W. D. Whitney's "The Life and Growth of Language" is used as a text-book in this course. Senior (elective.) Fall term. Three hours.

XI. The Novel and the Essay—Four hours a week for the spring term. The nature and history of these forms of literature are studied. Careful reading and criticism of selections from Dickens, Scott, Thackeray and others. The essays of Bacon, Macaulay, Emerson and others are read and discussed in class. Written exercises. Senior.

DEPARTMENT OF ASTRONOMY, MATHEMATICS AND LOGIC.

PROF. J. A. GRAY.

I. The study of Astronomy is of the highest intellectual training. The object will be to understand in a reasonable degree the evidence by which some of the most interesting and really astounding propositions are maintained. Four hours per week for Winter term.

II. COLLEGE ALGEBRA—Interest and annuities, Choice and Chance, Variables and Limits, Series, Theory of Equations. Four hours Winter term.

III. TRIGONOMETRY—PLANE—Trigonometrical Functions, Plane Triangles, Goniometry. Four hours.

IV. TRIGONOMETRY—SPHERICAL — Spherical Triangles, Applications to Astronomy. Four hours Fall term.

V. ANALYTICAL GEOMETRY—Application of rectilinear and polar coordinates to the point, the line the conic sections, General Equation of the second degree, Higher Plane curves. Four hours Winter term.

VI. SURVEYING AND NAVIGATION—Land Surveying, Leveling, Railroad Curves, Plain Sailing, Parallel Sailing, Great Circle Sailing. Four hours Spring term.

VII. CALCULUS—Differential and Integral.

VIII. LOGIC—Fundamental Laws of Thought, the Notion, Concept, Division, Definition, Deduction, Reduction, Modified Forms, Fallacies. Four hours for Spring term.

DEPARTMENT OF GREEK.

PROF. HOWARD MCDONALD.
ASSISTANT, PROF. C. J. MARSHALL.

Recognizing that a broad and liberal education demands a knowledge of the Greek language and literature, an effort is made to give the student an appreciation of the Greek language

as a medium of thought and of the Greek literature in poetry, history and oratory.

Much attention is given to the history of Greece and to those elements in the Greek life and character which have had most influence on modern thought and culture. The following courses constitute the work in the College department:

1. Homer's Iliad—*Fall term.* Three hours. Attention is given to the Homeric dialect, Prosody and Grecian Mythology. Seymour's School Iliad. Guerber's Myths of Greece and Rome.

II. Lysias' Orations—Winter term. Three hours. Selected orations. Review of Grammar. Study of Athenian court practice. Wait's Lysias.

III. Demosthenes' De Corona—Spring term. Three hours. Study of Grecian oratory and of the history of the period.

IV. Greek Tragedy—Fall term. Three hours. Assignment for 1908 Euripides' Medea. The Greek stage and the development of the drama are studied, using Jebb's Greek Literature in connection with required readings and theses. Scansion.

V. Greek Comedy—Winter term. Three hours. Aristophenes' Clouds. Continuation of the study of Greek Literature.

VI. Greek Testament—Three hours during the Spring term and one hour throughout the Junior year. Reading equally divided between the gospels and the epistles. A careful study of the grammatical difficulties of Biblical Greek. Sight reading

VII. The Greek Historians—Fall term. Three hours. Selected Readings from Herodotus and Thucydides. Elective for Seniors.

VIII. Sophocles—Winter term. Three hours. The Antigone. Elective for Seniors.

IX. Homer's Odyssey—Spring term. Three hours. Selected reading from the Odyssey. Elective for Seniors. The three elective courses are subject to change from year to year.

DEPARTMENT OF LATIN.

PROF. T. H. PADEN.

The purpose of instruction in the Latin Language is to enable the student to understand the principles of the language and to acquire the ability to translate it into idiomatic English. Latin is a required study in the Freshman and Sophomore years. Throughout the course Latin Literature will be studied. The following courses will be offered:

I. LIVY OR TACITUS—Fall term of the Freshman year, three hours a week.

II. SELECTIONS from the Latin Authors, Pliny, Seneca, Ovid, Catullus, etc. Winter term of the Freshman year, three hours a week.

III. CICERO'S ESSAYS—De Senectute or De Amicitia, Spring term of the Freshman year, three hours a week.

IV. HORACE—Selections from his Odes, Epodes, and Satires. Fall term of the Sophomore year, three hours a week.

V. LATIN COMEDY—Plautus' Mostellaria. Winter term of the Sophomore year, three hours a week.

VI. JUVENAL—Satires. Spring term of the Sophomore year, three hours a week.

DEPARTMENT OF GERMAN.

PROF. MARY SHARP.

The object of these courses is to give a knowledge of the elements of syntax and composition and facility in reading and speaking the German language. The first courses are elementary in character and as they advance the study of the literature claims increasing attention. Supplementary reading is encouraged and themes are required to be written in German from objects assigned which require independent work. The history of the German people and their literature is assigned for supplementary study and reading.

I AND II. ELEMENTARY GERMAN—Includes daily reading,

composition and study of grammar. Frequent exercises in dictation. Spanhoofd's Lehrbuch. Fall and Winter terms four hours per week. Junior classical.

III. Completion of Grammar—Dictation. Reading of easy modern texts such as Heyse's L'Arrabbiata, Storm's Immensee, etc. Special attention paid to syntactical forms. Spring term four hours.

IV, V, and VI. Advanced Grammar—Prose Composition—Reading of recent German prose and simple plays of Lessing, Goethe or Schiller. Sight reading. Throughout the year, four hours per week.

VII and VIII. Schiller—His life, works and times with selected readings from his lyrics, prose and dramas. It is the aim to make Schiller the central figure of themes, essays and critical studies to be written in German. Study of German History and Literature. Fall and Winter terms. Three hours per week.

IX. Early German Authors—Rapid readings of selections made from a large number of representative authors. Spring term, three hours per week.

X and XI. Goethe—His Life and Works. This course is to parallel courses seven and eight. Introduction to Goethe's prose and poetry. Themes on his life, times and works. Fall and Winter terms, three hours per week.

XII. Lessing and Heine—Study of their lives and writings, special attention given to theme writing on these two men. Their most important works will be read in class. Spring term, three hours per week.

DEPARTMENT OF FRENCH.

Prof. Mary Sharp.

I and II. Elementary French—Fraser and Squair's Grammar. Careful drill in verb forms, dictation, conversation. Fall and Winter terms four hours per week. Junior Classical and Scientific. Sophomore Literary.

III. Composition—Reading of such texts as Le Voyage de M. Perrichon, Le Gendre de M. Pirier, etc. Much attention paid to idioms. Constant drill in pronunciation. Conversation. Sight reading. Spring term four hours.

IV. Review of Grammar—Nineteenth Century prose writers. Sight reading. Dictation. Conversation. Fall term four hours.

V. Literature of the Eighteenth Century—Reading of easy texts out of class with resumes of the same. Conversation. Winter term four hours.

VI. Seventeenth Century writers accompanied by a brief History of French Literature. Spring term four hours per week.

VII. Representative Poetry—A study of the longer poems of De Musset, Hugo, Lamartine, etc. Senior Literary. Fall term three hours.

VIII and IX. Advanced French Prose—Weekly themes. Composition. Conversation. Winter and Spring terms three hours per week.

DEPARTMENT OF PHYSICS.

Prof. C. J. Marshall.

College Physics will be required of all Scientific juniors and may be elected in the other courses. A general survey of the field of Physics is attempted and some methods of exact observation and measurement will be taught. The historical development of the science and the principles of Physics as they are related to and underlie the facts and phenomena of daily experience will be emphasized. Prerequisite, Geometry, Trigonometry and Preparatory Physics.

General Physics.

I. Mechanics and Heat—Fall term four hours per week, two hours of laboratory work to count as one. Recitation, lecture and laboratory. Hastings and Beach text used as a guide.

II. Electricity and Magnetism—Winter term four hours

per week, two hours of laboratory work to count as one. Supplemental work from other texts. Hastings and Beach.

III. Light and Sound—Spring term four hours per week, two hours of laboratory to count as one. Hastings and Beach.

IV. Magnetism and Electricity—Winter term Senior year. Elective. This term offers opportunities for advanced work in the theory and applications of electricity and will be given when elected by a sufficient number.

DEPARTMENT OF GEOLOGY.

Prof. C. J. Marshall.

I. Dynamical, Structural and Historical Geology—This course consists of recitation and field work accompanied by collateral reading and themes on special topics. Fall term, three hours per week.

DEPARTMENT OF BIOLOGY.

Professor, A. H. Wright.
Assistant, Professor, C. J. Marshall.

I. Invertebrate and Vertebrate Zoology—Systematic and Theoretic Zoology. Study of anatomy and life history of representatives of the Protozoa, Porifera, Mallusca and Chordata by dissection of fresh specimens in the laboratory while special work in the field is required in subjects of Entomology and Ornithology. Fall term and first half of the Winter term. Recitations four hours, laboratory two hours per week.

II. Botany—Cryptogamic and Phanerogamic study of cell structure and arrangement as exhibited in the tissues of the various plants throughout the vegetable kingdom. Life histories, habitat and evolution of the Algae, Fungi, Byrophytes, Gymnosperm, etc. Ecology and Economic Botany, Plant Geography. Recitation four hours, laboratory and field work two hours per week. Last half of Winter term and Spring term.

III. Biology—This course begins with reviews of Physi-

ology, with laboratory work on chemical nature of foods, digestion and absorption. Structure of bone and muscles, etc. Human body is used for a study of comparative zoology and introduction to Histology. Fall term. Recitations three hours, laboratory two hours per week.

IV. Comparative Anatomy and Histology—Comparative study of the organs and tissues of the vertebrates, including the elements of mammalian anatomy, accompanied by dissections and an introduction to general histology. Winter term recitations three hours, laboratory four hours per week.

V. Embryology—Work on the comparative embryology of the vertebrates. Most of the work is based on the first four days in the development of the chick. Each student makes serial sections of several embryos and thus gains pratical knowledge and skill in the technique of fixing, staining, embedding, sectioning and mounting. Brief comparative study is also made of the early stages of the development of the frog. Spring term, recitations three hours, laboratory work six hours per week.

DEPARTMENT OF CHEMISTRY.

Prof. A. H. Wright.

I. General Chemistry—Elementary course, giving an introduction to chemical principles of the non-metallic elements. Careful manipulation, thoroughness in observation, accuracy in arriving at conclusions and neatness in note taking are required of each student. Fall term, recitations four hours; laboratory, four hours per week. Required of Sophomores of Scientific and Classical courses. Elective for Sophomores of Literary course.

II. General Chemistry—Continuation of course one. Study of the metallic elements and an introduction to organic chemistry. Winter term, recitations four hours; laboratory, four hours per week.

III. Qualitative Chemical Analysis—Consists of study of reactions involved in the separation and indentification of the commoner bases and acids. The student will be expected to an-

alyze a number of simple salts and a few mixtures which contain in each case, only the metals and acids of a single group. Emphasis is placed on acquiring a knowledge of simpler methods of chemical analysis. Spring term, recitations two hours; laboratory, six hours per week. Required of Sophomores of Scientific course. Elective for Juniors in the Classical course.

IV. Qualitative Chemical Analysis—Continuation of course three. Reactions for dry substances. Blowpipe analysis. Systematic examinations for metals and acids in simple and mixed compounds in solution. Fall term, recitations two hours, laboratory six hours per week. Elective for Juniors who have completed course three.

V. Quantitative Chemical Analysis—A study of methods. The balance titration, incineration, filters, dessication and general methods of calculation. Preparation of standard solutions of acids and alkalies. Methods of volumetric analysis. Determination of silver and thehalogene. Winter term recitations three hours; laboratory six hours per week. Elective for those who have completed courses one and four inclusive.

VI. Organic Chemistry—Application of Quantitative chemical analysis to Organic Chemistry. Fractionating, steam distillation and other laboratory methods. Aliphatic series, saturated hydrocarbons, homology, structure and violence. Alcohols, holides, ethers, etc. Remsen's Organic Chemistry will be used as text. Spring term; recitations, three hours; laboratory, six hours per week. Elective for those who have completed courses one and five inclusive.

DEPARTMENT OF ENGINEERING.

Prof. J. A. Gray.
Miss Sara Alison Gray.

Credit for the following courses may be counted toward a baccalaureate degree only when they are taken in connection with Physics and they may not be counted as a part of the required work in Science.

* If Greek has been elected, German may be taken instead of French.

The following courses are offered:

I. Mechanical Drawing—Three hours a week for a year. The first term's work includes the use of drawing instruments, inking, and the platting of plane problems in geometry. The second term includes orthographic projections, shadows, and isometrical and working drawings. The third term includes plans, elevations and sections of machinery, plain and fancy lettering, and borders. Anthony's elements of Mechanical Drawing is the text book. Elective for students who have had Plane Geometry

II. Mechanical Drawing—Three hours a week for a year. The first term advanced drawing. The second term deals with simple mechanical problems, including the designing of cams and gears, the making of practical working drawings, and lettering. Text-book Anthony's Essentials of Gearing. The third term's work includes the platting of problems in Descriptive Geometry, with its applications to orthographical and spherical projections, and also to shades and shadows. Church's Descriptive Geometry is the text-book. Elective for students who have completed Engineering course 1.

A fee of $4.00 per term will be charged students in this department.

COURSE IN ENGINEERING.

A course providing for the first two years of engineering and leading to the degree of B. S.

In connection with the Scientific Course the College provides, through the Department of Engineering, courses of instruction in Engineering similar in scope and subject to those prescribed for the first two years in the curriculum of technical schools. Candidates for the degree of Bachelor of Science, who are preparing for the profession of Engineering, by pursuing the studies indicated below in connection with collegiate elective studies, may thus complete the first two years of a technical course at the same time that they fulfill the requirements for a collegiate degree.

FIRST YEAR.

Mathematics—College Algebra, Trigonometry, Analytics.

Chemistry—Inorganic, Inorganic, Qualitative Analysis.
Modern Language—French or German through the year.
English—Literature, American Masterpieces, Composition.
Drawing—Freehand, pen and pencil, Lettering, etc.

SECOND YEAR.

Mathematics—Surveying and Nav. Calculus, Calculus.
Physics—Mechanics, Heat, Electricity, Light, Sound, Problems.
Modern Language—French or German through the year.
English—Oratory, English Masterpieces, Argumentation.
Drawing—Mechanical Drawing throughout the year.

SUGGESTIONS FOR THE SELECTION OF ELECTIVES.

In all technical schools the subjects of the first year are substantially the same in all branches of Engineering. These subjects are fully covered by equivalent courses in this college and can be pursued here as successfully as elsewhere.

In the second year the courses diverge somewhat and in order to meet the requirements for special branches of engineering the student is advised to select his electives as follows:

For mechanical, electrical or civil engineering, from the departments of Mathematics and Physics. For civil engineering, Geology should be added.

For mining engineering from the departments of Geology and Biology.

For chemical and sanitary engineering, from the departments of Chemistry and Biology.

DEPARTMENTS OF ELOCUTION, ORATORY AND ARGUMENTATION.

PROF. ELBERT R. MOSES, B. L.

The design of the department of Elocution and Oratory is to acquaint the student with the essentials of impressive speech, to

teach him the correct use of body, voice and intellect, so that he may put to the best possible use the knowledge gained through the pursuance of a prescribed college course.

Course I—Analytic Expression.

The Psychic Being—Voice, pronunciation, emphasis.

Different Elements of Vocal Expression, quality normal, oral aspirate, guttural, pectoral, nasal, falsetto.

Force—form, degree, stress.

Pitch—degree, change, melody.

Time—quantity, pause, movement.

Elements of Action physical, education, aesthetic physical culture.

Principles of Action, tones, position, inflection of the body.

Technique of Action, position, attitude and gesture.

Course II.—Written and Vocal Oratoric Expression.

Collateral Reading, writing of daily briefs, analysis of model orations both from the view point of delivery and structure, study of climax, anti-climax, and paragraph. Examination of orations representing different classes, viz: forensic, biographical and argumentative. Critical study of the lives and works of the following ancient and modern orators: Demonsthenes, Cicero, Savonarola, Luther, Mireabeau, Burke, Webster, Clay, Lincoln, Phillips, Beecher, Gladstone, Thurston, Bryan, and others. Each student must prepare and deliver one original oration of not less than eight hundred words, or more than twelve hundred, per term, also, one declamation, and one topical speech.

Course III.—Argumentation and Debate.

The Purpose and Use of Argumentation.

The Process of Argumentation, viz: finding the proposition. selecting the question, deciding on, and stating the proposition.

Proving the Proposition—the brief, importance of brief, introduction to the brief, test of a good introduction.

The Proof—classification of evidence, quantity of evidence, kind of evidence, refutation.

Presentation of Material—The forensic, development of the forensic, persuasion.

Research.

Class Limited to Twenty-four, class divided into teams of six members each. A participation in at least two joint debates per term will be required of each team. Criticism by instructor members of faculty and students.

SUGGESTIONS FOR THE SELECTION OF ELECTIVES.

For the benefit of those who have in view entering upon the study of courses in theology, medicine, law or engineering the following suggestions in the choice of course of study and electives are here offered:

FOR COURSE IN THEOLOGY.

Freshman Year—As outlined in Classical course.

Sophomore Year—As outlined in Classical course.

Junior Year—The required subjects in classical course and the election of 7 hours from German, French, College Physics, Biology, Cont. History of England, Financial History of United States, Argumentation, Public Speaking and Extemporaneous Discourse.

Senior Year—The required work in classical course and the election of 9 hours from Greek, French, German, Geology, English and Elocution.

FOR COURSE OF MEDICINE.

Freshman Year—As outlined in scientific course.

Sophomore Year—As outlined in scientific course.

Junior Year—The required subjects in scientific course and the election of 7 hours from Biology, Chemistry, College Physics and French.

Senior Year—The required subjects in scientific course and the election of 9 hours from Biology, Chemistry and French.

FOR COURSE IN LAW.

Freshman Year—As outlined in Classical or Scientific course.

Sophomore Year—As outlined in Classical or Scientific Course.

Junior Year—Required subjects in Classical or Scientific course and election of 7 hours Const. History of U. S., Const. History of England, Fin. History of U. S. Sociology or Argumentation, Public Speaking, Extemporaneous Discourse, German, College Physics, Biology or French.

Senior Year—Required subjects in Classical and Scientific courses. Election of 9 hours Political Science, Philosophy, English, French.

Course of Study for Teachers.

Sincerely desiring to be of service to that large number of young men and women who are looking toward teaching as a calling, and who do not yet feel themselves able to meet the expense of a complete college course, Muskingum College offers the following course of study, on the completion of which the students receive a certificate, testifying to the work done. No degree is granted for this course.

At any point in the course, we shall willingly furnish the student with a certificate indicating the work already done. This certificate will be put up in attractive form.

A glance at this course will show that it contains all the subjects ordinarily taught in our public schools, graded and ungraded, including first grade high schools.

In addition it contains work in Psychology, History of Education and Methods of Teaching. There will be required readings in Educational Journals during the last two years.

Those who enter for this course have all the privileges enjoyed by other students, and are under the same requirements.

We are confident that it will be a great benefit to any teacher to thoroughly complete this course. The teacher who has a true ambition and a high ideal will, however, desire to go on from this point and complete one of the other courses. Full credit will be given on the other courses for work done in this. After completing this course the student can complete either the Scientific or the Literary course in three years, or (by some extra work in Greek) the Classical course in three years.

Preparatory Department

The aim of this department is to provide thorough preparation under the most favorable conditions for the College Courses and to lay a solid foundation for a liberal education. The work is arranged, too, so as to meet the requirements of those who are looking forward to a professional or scientific education. Teachers will find the work in this department of special value.

The students are subject to the same regulations and receive the benefit of all the facilities and advantages incident to association with a progressive College. The instruction is equally thorough with that done in the College department.

ENGLISH.

In the first Preparatory year much time is devoted to the careful study of English in its rudiments. In the second year one term is devoted to the study of the Science of the Sentence and one to Elementary Elocution. Five hours a week. The Spring term of this year and Fall term of the middle year are given to the study of Rhetoric. Punctuation, diction, style, figures of speech and prosody receive special attention. Five hours in Spring term second year, four hours in Fall term third year.

English Composition is taught in Winter term and Spring term of the third year. Weekly theme writing, paragraph writing and impromptu essays are required. Four hours.

The fourth Preparatory year is given to the critical study of the literary works required for entrance to college. There is a careful oversight of the work in required reading and an honest effort is made to have it enjoyed. Two hours a week in class.

HISTORY.

General History—A History of the Ancient Oriental Nations and an outline of the history of the Modern Nations of Europe are studied during the second year of the Preparatory course five hours a week.

POLITICAL SCIENCE.

Civics—The origin and growth of our government, local, state and national, and also the formation and principles of the Federal Constitution, are studied during the Spring term of the second Preparatory year, five hours a week. Prerequisite—United States History

GREEK.

The preparatory work in Greek covers two years as follows:

First Year—White's First Greek Book, two terms. Xenophon's Anabasis, one term. During the first two terms an effort is made to secure the mastery of essential inflections, the acquisition of a good working vocabulary, and familiarity with the irregular forms of verbs. The object in the Spring term is to lay a solid foundation in the general principles of Greek syntax.

Second Year—Xenophon's Anabasis, four books completed, two terms; Plato's Apology and Crito, one term. Grammar and prose composition are prominent during the first two terms. The third term affords opportunity to study the life and character of Socrates and his contemporaries.

LATIN.

The aim of the instruction in Latin is to get a good working vocabulary, to master the inflections and ordinary constructions of the language and to become able to read Latin of average difficulty with facility. Throughout this course a thorough drill is given in grammatical forms and principles. In poetry attention is

given to scansion and Mythology. The Roman pronunciation is used and its correct use is constantly insisted upon. Throughout the course attention is given to the writing of Latin. The work in this course covers a period of four years as follows:

First Year—Bennett's Foundation of Latin, throughout the year, five hours a week.

Second Year—Caesar, the selections from Caesar's Gallic War contained in Greenough, D'Ooge and Daniel's Second Year Latin Books, five hours a week.

Third Year—Cicero's Orations against Cataline, four hours a week.

Four Year—Virgil's Aeneid, Books I-VI. Four hours a week.

GERMAN.

The aim of this course is to give a ready knowledge of the language and an insight into the life and thought of the German people. German is treated as a living language and immediate contact with it is cultivated through various kinds of oral and written exercises. As far as possible the German language is used in the class room and students are urged to continue this outside. The first year consists of drills in grammar, syntax, composition and reading of many short stories. Throughout the year, four hours per week.

Second Year—Advanced Grammar and prose composition. Sight reading. Theme writing. Reading recent German prose and poetry. Throughout the year, four hours per week.

PHYSICS.

Fourth Year—Three terms, four hours per week, exclusive of laboratory work. The principles, facts and theories of elementary Physics will be set forth through recitations, problems, illustrations, and demonstrations. Milliken and Gale.

Greek is preparatory to the Classical Course and German to the Scientific. Either elective for the Lit.

BOTANY.

Third Year—Spring term, four hours. Recitations, field work, identification of flowering plants and trees.

PHYSIOGRAPHY.

This includes a study of the land forms and their relation to life. Recitations four hours per week. Fall and winter terms.

MATHEMATICS.

I. Beginning Algebra—Real success in the higher mathematics depends very much upon a thorough mastery of the rudiments of algebra. For this reason the student who has never studied algebra will be required to study Wentworth's "First Steps in Algebra" for two terms, reviewing and re-reviewing as the instructor may direct. During the third term the pupil studies the first nine chapters of Wentworth's Higher Algebra. Five hours per week.

II. Higher Algebra—Simultaneous Equations, Indeterminate Equations, Inequalities, Radical Expressions, Quadratic Equations, Ratio and Proportion, Variation, Progression, Binominal Theorem, Common Logarithms. Four hours per week for two terms.

III. Plane Geometry—Numerous Exercises. Four hours per week for two terms.

IV. Solid Geometry—Numerous Exercises. Four hours per week for one term.

Conservatory of Music

COUNTERPOINT AND INTERPRETATION.

Charles S. Wengerd.
Mabel Martha Moore.

PUBLIC SCHOOL MUSIC.

Charles S. Wengerd.

CHORUS AND ORCHESTRA.

Charles S. Wengerd.

OUR TEACHING FORCE.

The teachers in our conservatory are all persons of broad musical education and experience. The marked success of the school since the Director took charge last Fall is due largely to his untiring efforts, his thorough education and years of experience in this country and abroad, and his congenial disposition.

The other members of the faculty are very popular with the student body and have proven their superior abilities as teachers and performers.

THE CONSERVATORY'S OBJECT.

Our object is, primarily, to place before all grades of music students such a course as will thoroughly fit them for a teacher or virtuoso. Each individual pupil determines largely his or her degree of proficiency by the manner in which they apply themselves to their work, yet, our object is to shape and mould each pupil's education so as to make them see the need of deep, earnest study if they are to become successful men and women of action in the music world.

With this object constantly in view, the courses have been materially strengthened and the whole conservatory put on a much broader plane of usefulness. New features have been added.

The conservatory has gone forward artistically, and our marked growth in attendance over last year is the best proof of our healthy condition.

COURSES OFFERED.

About four years are required to complete any one of the following courses, except the last; however, the time required depends largely upon the students natural ability, hard work and condition of health. These courses are offered: Piano, Voice, Violin, Theory, Teachers' Course and Public School Music.

REQUIREMENTS FOR GRADUATION.

All Piano, Voice and Violin graduates are required to take four terms of Harmony, two terms of Counterpoint and three terms of Musical History, also to give a Graduating Recital. Chorus singing is required of all Voice graduates, Violin graduates are required to play in the College Orchestra and Piano graduates to do ensemble work in their line of work. A student must have spent at least one year in this institution to be entitled to graduation. Upon the completion of any of the above courses a diploma will be granted for which a fee of $2.50 is charged.

Certificates are granted to those completing the course in Public School Music. Graduates in this course must complete a three term course in Harmony.

PIANOFORTE.

This course is laid out on broad lines. A careful study of the individual needs and development of the hand is given. The individuality of the student is encouraged and he is taught to think musically. The flexibility of the arm and hand together with a firm finger stroke is carefully cultivated by special exercises scales, arpeggios, chords, etc. Great care is taken to develop in the student a poetic interpretation of the works of the masters, past and present.

The course of Pianoforte is so broad and varies so much, according to the individual needs of the student, that it is made useless to lay down a specific course. Every student must play fluently all the major and minor scales in their different forms. Arpeggios, chords and octaves must be thoroughly mastered. Along with these are given studies and etudes selected from the best known writers. Compositions from all the Old Masters as well as the modern writers must be learned and played fluently.

Each pupil is grounded in the general principles of the work, but aim to avoid getting into a "rut," as much as possible, and the field is so broad that this is not hard to accomplish.

VOICE CULTURE.

This department offers a broad, comprehensive course. Every detail of the work from the very beginning is gone thru with, and leads to the highest degree of proficiency. To graduate from this department students are required to be able to play accompaniments in a creditable manner. Chorus work is required of all Voice students who are sufficiently advanced.

Great care is given to a clear, easy emission of tone and the proper placement of the voice. To accomplish this, there must be a proper control of the breath, an elastic throat and a perfect blending and bridging over of the registers. All artificiality is overcome and instead a natural tone of beauty and brilliancy is developed.

What has been said concerning the course in piano applies largely to this course. A thorough knowledge of breathing and breath control is taught. Exercises in breathing and the relaxation of all the muscles of the throat, neck, chin and face. Exercises to vitalize the body and produce resonance in the voice. Sieber's Eight Measure Studies are used at first, then follow Concone, Marchesi and others. Songs are given as soon as the individual voice will permit. Scales, chords, the swell and all forms of embelishments are used. The Masterpieces of Vocalization are finally used together with the best songs from the great field of ancient and modern song writers. Selections from the standard operas, oratories, etc., will be given as the student advances

VIOLIN.

With perhaps the exception of the Piano, the Violin is the most universally accepted and used instrument. Its capacity for eloquent and varied expression is unrivaled by any instrument in use. Although restricted in the extensive production of harmonious effects, the violin rises to the foremost position as leader in all the qualities of melody and tone, and, more than any other instrument, is the means of cultivating an ear for melody, in both player and hearers.

The course in Violin is along the following lines. The Sevick system is used.

First Year.

Sevick Part 1, first position, Kayser Op. 20 book 1, Wohlfhrt Op. 45 book 1, easy pieces in first position. Hidden scale studies.

Second Year.

Sevick Part 2, first to seventh position, Sevick Part 3 change of position, DeBeriot Position Studies, Kayser Op. 20 book 2. Wohlfhrt Op. 45 book 2. Solos by Dancle, Singelee ect., etc. Hidden scales.

Third Year.

Sevick Part 3 continued, Maza's book 1, Studies by Schradieck, Dancla, DeBeriot, Solos by Alard, Rode, etc., etc.

Fourth Year.

Ries Studies for Positions, Part 2. Hidden Special Scales and Exercises, Kreutzer. Solos by Rode, Kreutzer, etc., etc.

All Violin students sufficiently advanced are required to play in the orchestra, for which no charge is made.

THEORY.

Harmony and Counterpoint.

A thorough knowledge of Harmony is of the greatest importance and benefit to every one studying music in any of its branches. Whether you intend graduating or not, every music student is urged to take up this study at once.

The work consists of gaining a knowledge of keys, intervals, signatures, scales and chords of all kinds, melodic changes, etc., the harmonizing of melodies and the writing and playing of modulations.

Two part, three part and four part counterpoint, and imitation are taught.

HISTORY OF MUSIC.

A complete study is made of music from the beginning. Early Christian Music, Polyphonic, Monophonic and the development of Instrumental Music, Opera, Oratorio and Orchestral Music. Biographies of the great musicians, past and present.

TEACHERS' COURSE.

A special course is offered in Piano, Voice or Violin to those desiring to especially fit themselves as teachers. This course is offered recognizing the fact that not all students are capable of becoming brilliant performers but are especially talented as teachers. To such, or any others, we offer this particular course.

PUBLIC SCHOOL MUSIC.

This course is especially recommended to such school teachers as wish to fit themselves to teach music in conection with their regular work and thereby broaden their sphere of usefulness. Many school boards are requiring teachers to have a thorough knowledge of school music. Pupils in this course will be given practical teaching experience in connection with the regular class work. Those preparing themselves especially for a position of Supervisor of Music in public school work, will be required to take at least two terms of private vocal instruction in this institution, or to give proof of having acquired its equivalent elsewhere.

CHORAL SOCIETY

Our chorus has been very active this year under the direction of Prof. Wengerd. At the end of the Fall and Winter Terms. the society gave a concert of high order. A Musical Festival was given Commencement Week, consisting of two evening performances. The first evening the chorus gave Noye's "The Village Blacksmith" and Gounod's sacred work "Gallia," and the College

Orchestra assisted at this concert. The second evening Rhys-Herbert's beautiful operetta "Sylvia" was given with local talent from the conservatory. The proceeds from these concerts were given to the Pipe-Organ Fund.

The advantages of chorus drill are numerous and the small fee charged bears no comparison to the value of the work.

COLLEGE ORCHESTRA.

Last September Prof. Wengerd and a few students met to effect an Orchestral Organization. The success met with has gone beyond all expectations, the organization now numbering 14 regular members. They have appeared each term in concert and were given a rousing reception at their first appearance. There is no more popular organization in the College. The long felt need of such an organization has been fully realized. All students playing orchestral instruments who are sufficiently advanced are urged to join the orchestra. It is free to all.

RECITALS.

At frequent intervals the Conservatory Faculty will give recitals at which there will be an explanation of the music performed, thus giving the students an opportunity of hearing good music artistically performed.

Pupil recitals are held regularly at which all grades of pupils from all departments will be given the opportunity to appear before an audience. At the close of each Term the Term Recital is given by the most advanced pupils.

As many recitals by outside artists will be given during the year as can be secured, thus giving the students the privilege of hearing as much first class music as possible.

GENERAL INFORMATION.

Pupils may enter at any time, but are strongly advised to enter at the beginning of the term.

Beginning pupils will receive special care.

A Musical Library has recently been added to the general library of the College and all music students are urged to make liberal use of it. The whole field of music is covered in this library. There are good weekly and monthly musical magazines to be found in the reading room.

Private lessons in Harmony, Counterpoint, etc., may be had when desired.

A Notation class is open free to all students.

All students are subject to the regular College regulations.

To those desiring more than two lessons a week in any branch, special arrangements can be made.

Students are requested to consult the Director before entering. For further information write the Director. A special catalogue will be sent to any address.

POST-GRADUATE COURSE.

A special course is offered to graduates, or advanced students of Piano, Voice or Violin, consisting chiefly of acquiring a repertoire. The degree of Bachelor of Music is awarded to those satisfactorily completing the one year course. A fee of $5.00 is charged.

TUITION, TERMS, ETC.

Tuition must invariably be paid for in advance at the beginning of each term.

Lessons missed by fault of the pupil will not be made up.

In case of protracted sickness, one half the loss will be borne by the school.

CLASS LESSONS. (*Two a Week.*)

	Fall Term.	Winter or Spring Term.
Voice or Piano with Prof. Wengerd....	$18.00	$16.00

Piano with Miss Moore	15.00	13.00
Violin with Miss Robinett	15.00	13.00
Counterpoint, Harmony or History	7.00	6.00
Public School Music, Six in class	6.00	5.00
Public School Music, ten or more in class	5.00	4.00

PRIVATE LESSONS (*Fall Term*)

	One a week	Two a week.
Voice or Piano with Prof. Wengerd	$14.00	$26.00
Piano with Miss Moore	11.00	20.00
Violin with Miss Robinett	11.00	20.00

PRIVATE LESSONS (*Winter or Spring Term*)

	One a week.	Two a week.
Voice or Piano with Prof. Wengerd	$12.00	$22.00
Piano with Miss Moore	9.00	16.00
Violin with Miss Robinett	9.00	16.00

CHORUS CLASS.

Whole year	$2.50
Two terms	2.00
One Term	1.25

PIANO RENT.

Pianos may be had at various prices. The ordinary charge for two hours a day for the Fall Term is $4.50 to $4.75; for the Winter or Spring Term $3.75 to $4.00.

MUSIC ELECTIVES.

Music may be elected from any of the following courses, and applied on the electives of any of the three regular College courses described elsewhere. The following conditions must be complied

with: Credit will not be given for music taken elsewhere. To receive credit for music as an elective, the student must have passing grades entered on the books, of the work on which credit is desired, and also of all pre-requisite work.

The student electing music must take at least two lessons per week in any of the following courses, to receive credit.

Students electing music must pay the regular tuition price for lessons in the Conservatory.

The regular Collegiate Course in Piano, Voice and Violin is preceeded by a short Preparatory course covering a knowledge of the elementary rudiments of music.

The following courses are offered:

Course 1—Harmony, twice a week, 2 hours credit.

Course 2—Musical History, twice a week, 2 hours credit.

Course 3—Counterpoint, twice a week, 2 hours credit.

Course 4—Piano, 2nd, 3d and 4th years Collegiate, twice a week, 2 hours credit.

Course 5—Voice, 2nd, 3d and 4th years Collegiate, twice a week, 2 hours credit.

Course 6—Violin, 2nd, 3d and 4th years Collegiate, twice a week, 2 hours credit.

Course 7—Public School Music, twice a week, 2 hours credit.

As a pre-requisite to courses 4, 5 and 6, the Preparatory and first year Collegiate grades are required; and as a pre-requisite to Course 7, the first two terms of Course 1 must be taken.

School of Speech Arts

Elbert Raymond Moses. B. L.

The day is past when a young man or woman can say that preparation for life's duties is completed without some preliminary training in thought presentation. The work laid down in a prescribed course may have been brought to a successful end, yet if there is not a sufficient understanding of how to use the knowledge obtained, it will be as tools in the hands of an unskilled artisan, dead weight.

The trite saying that "knowledge is power" is very true, but the amount of power that knowledge will yield depends upon the manner in which the knowledge is used.

The study of Oratory teaches the student how to use his knowledge so as to reap the greatest possible benefit. It reveals to him the power of concentration, discrimination, and self-possession. It gives to him who is faithful to his task a well-rounded modulated voice. It equips him with a physical being worthy to be called "The Temple of God." All this linked to a well-prescribed college course produces the symmetrical man—the man with a keen intellect, a pleasing voice and an impressive body.

Are you preparing yourself for a place of usefulness, if so, then your ideal should be the symmetrical man because it is through him that the most difficult problems are solved, the greatest successes achieved and the highest goals attained.

Are your chances for success in life impaired if you neglect the development of the symmetrical man? Read carefully what William Ewart Gladstone says: "Many a professional man now in obscurity might rise to the highest rank if he were farseeing enough to train his voice and body as well as his mind."

DEPARTMENT OF ORATORY.

In the Department of Oratory three years of work will be offered, viz: Courses in *Analytic Expression, Vocal and Written Oratoric Expression, Argumentation and Debate, required of Sophomores. .Bible and Psalm Reading, Public Speaking, Extemporaneous Speaking, Junior Elective. .Dramatic Expression, Essentials of Elocution, Interpretive Reading, Senior Elective.*

Course I.—Analytic Expression.

..*The Psychic Being*—Voice, pronunciation, emphasis.

Different Elements of Vocal Expression, quality normal, oral aspirate, guttural, pectoral, nasal, falsetto.

Force—form, degree, stress.

Pitch—degree, change, melody.

Time—quantity, pause, movement.

Elements of Action, physical, education, aesthetic physical culture.

Principles of Action, tones, positions, inflection of the body.

Technique of Action, position, attitude and gesture.

Course II—Written and Vocal Oratoric Expression.

Collateral Reading, writing of daily briefs, analysis of model orations, both from the view point of delivery and structure, study of climax, anti-climax, and paragraph. Examination of orations representing different classes, viz: forensic, biographical and argumentative. Critical study of the lives and works of the following ancient and modern orators: Demonsthenes, Cicero, Savonarola, Luther, Mireabeau, Burke, Webster, Clay, Lincoln, Phillips, Beecher, Gladstone, Thurston, Bryan, and others. Each student must prepare and deliver one original oration of not less than eight hundred words, or more than twelve hundred, per term, also, one declamation, and one topical speech.

Course III—Argumentation and Debate.

The Purpose and Use of Argumentation.

The Process of Argumentation, viz: finding the proposition.

selecting the question, deciding on, and stating the proposition.

Proving the Proposition—the brief, importance of brief, introduction to the brief, test of a good introduction.

The Proof—classification of evidence, quanity of evidence, kind of evidence, refutation.

Presentation of Material—The forensic, development of the forensic, persuasion.

Research.

Class Limited to Twenty-four, class divided into teams of six members each. A participation in at least two joints debates per term will be required of each team. Criticism by instructor members of faculty and students.

SCHOOL OF EXPRESSION.

A two years course has been arranged for those desiring a more exhaustive study of *Speech Arts*: Embracing Rhetoric, Literature, Elocution, Oratory and Physical Education. The graduates of college who successfully complete the prescribed course will be awarded the degree of M. E. Graduates of Secondary schools the degree of B. O. Pupils who have neither completed courses in college or academies, but satisfactorily complete the course in *Speech Arts* will be given the diploma of graduation. One hundred and forty private lessons required for graduation.

Course IV—Bible and Psalm Reading.

The Problem—The Bible in worship. General nature of vocal expression.

The Message—The literary spirit, narrative spirit, didactic spirit, oratoric spirit, allegoric spirit, lyric spirit. The art of the master. Literary spirit, and vocal expression.

The Technique—Rythmic action of the mind, modulation of voice, change of ideas and pitch, method in thinking, inflection, argument, movement.

Preparation and the Service—Selection and arrangement of

the lesson, self criticism, responsive reading, the reader's attitude.

Course V—Practical Public Speaking.

Different modes of address. Secret of after dinner oratory. Consideration of the following important subjects in address—the manuscript read, the manuscript memorized, and the extemporaneous form. The advantages and disadvantages discussed pro and con. Original address on assigned topics which must not be less than eight minutes or more than ten minutes in length. The short speech, the toast and response, the value and use of illustration will also be considered in this course.

Course VI—Extemporaneous Speaking.

The general aim of this course will be to teach students to think rapidly and clearly when on their feet. The following important subjects will be carefully considered in this course: the exordium, dangers in extempo oratory, uses of language, physiological basis of speech, factors in the evolution of speech, words and their proper use, ideas. Elocution for the extemporizer, the voice, articulation, gesture, temptation of the extemporaneous speaker, addressing the assembly. Daily briefs will be required of each student. Impromptu talks and debates on current topics and subjects will be a part of the daily class work

Course VII—Essentials of the Spoken Word.

Analytic study of English pronunciation, how can I become a distinct speaker? How can I become a natural speaker?

Exercises for the development of vocal purity, also exercises for the development of vocal energy. The elevated conversational voice. Practical suggestions on emphasis, inflection and cadence. Expression. The class opened each day with ten minutes of physical and vocal drill. Much of the class work will be done through the lecture system.

Course VIII—Interpretive Reading.

The class to meet three times per week, two recitations to be devoted to the interpretation of selections from the following styles, narrative, descriptive, didactic, gaiety, humor, pathos, solemnity, serenity, beauty and love, grand, sublime, reverential, abrupt, and oratorical styles. One recitation per week given over to platform work using such selections for interpretation as will most easily remove the defect of the pupil. Exercises in vocal and physical gymnastics at the opening of each recitation, lectures by the instructor, research work by students. This course should follow course VII.

Course IX—Dramatic Expression.

The study and presentation of the drama. Character study, history of the drama, its origin, analytic and literary study of selected plays from Shakespeare. Study of climax, plot, etc. Possible plays, Hamlet, Julius Caesar, Merchant of Venice, Romeo and Juliet, Tempest and Macbeth. Physical presentation of at least one play.

COST OF INSTRUCTION.

Fall Term—Fourteen Weeks.

Three private lessons a week	$25 00
Two private lessons a week	20 00
One private lesson a week	11 00
Single lesson	1 00

Winter and Spring Term—Twelve Weeks.

Three private lessons a week	$22 00
Two private lessons a week	18 00
One private lesson a week	10 00
Single lesson	1 00

Class Lessons.

Fall term, three lessons a week	$6 00

Winter or Spring, three lessons a week..... 5 00

General Rules and Information.

Pupils are subject to college rules, also to the special rules of the department. All students enrolled for one or more lessons a week are required to appear on a public recital at least once a term.

Lessons lost by fault of pupil will not be made up.

Excused lessons one day previous to the taking will be made up. Omissions caused by teacher will be made up. Payments required in advance. Lessons must be taken consecutively. No tuition refunded only in case of sickness. No tuition transferred to other departments.

School of Art

Miss Sara Alison Gray, B. S.

Training the eye and hand is an important part of a finished education and should not be neglected. All need to develop a knowldege of form and color. A course in Drawing and Painting is the best way to do it. Instruction given in China Painting, Drawing and Crayon in landscape, animals, etc. Landscapes, flowers and decorative painting in Oil and Water Colors. Special attention to beginners. Prang's System of Free Hand Drawing taught. Also drawing from the antique and life. We recommend this course to all, especially to those who are preparing to teach.

Students must have some knowledge of Drawing before attempting to work in Crayon.

Students are required to master the simpler studies before attempting anything difficult. Students will be advanced as rapidly as in the judgment of the teacher is best for them.

Instruction in Pyrography is also given.

The art of burning wood and leather is very popular because by it a great variety of useful and fancy household articles can be decorated.

Tuition.

12 hours a week in Oil painting (Fall term)	$12 00
6 hours a week in Oil painting (Fall term)	6 00
Water Color and China Painting at the same rates.	
12 hours a week in Crayon (Fall Term)	10 00
6 hours a week in Crayon (Fall term)	5 00
12 hours a week in Oil Painting (Winter or Spring)	10 00
6 hours a week in Oil painting (Winter or Spring)	5 00
Water Color and China same rates as Oil Painting.	
12 hours a week in Crayon (Winter or Spring)	8 00
6 hours a week in Crayon (Winter or Spring)	4 00
3 lessons a week in Free Hand Drawing (Fall term)	3 00
3 lessons a week in Free Hand Drawing (Winter or Spring)	2 50

Commercial Department

Lewis G. Coffey.
Instructor in Shorthand.

Silvester C. Britton.
Instructor in Typewriting.

As a result of the demand for a Business Course Shorthand and Typewriting were offered to the students of Muskingum College in the fall of 1907. The interest taken in the work throughout the year has been good and the plans for 1908 include an enlarging of the Course to embrace Commercial Law, Bookeeping, Commercial Arthmetic, Commercial Geography, in fact, the facilities will be such as to meet any demand that may be made in the Commercial line. The aim of the Commercial Department is to fit its students for practical work and for that reason the instruction is made as nearly like actual office practice as possible.

Shorthand.

The required time in Shorthand is five hours a week, for three terms. The work of the first six months is largely that of laying a firm theoretical basis in the Pitmanic system of Shorthand. The remainder of the time is devoted to dictation and the acquiring of accuracy and speed. The dictation work is under the direct supervision of the Instructor and the student is required to be accurate and neat. At the completion of the course a certificate will be given to each graduate specifying the amount of work done and the ability which he has attained.

Typewriting Department.

Consistant with a good shorthand course is an equally efficient typewriting course. Muskingum has adopted the best in this line and placed it in the hands of a practical instructor. The system taught is the unparalleled touch method, now in use in all the large colleges and commercial schools. By it a student is able to write continously not having to lift the eyes to watch the key-board as in the old method, hence much more work can be accomplished.

In two college terms a student can secure a good technical and practical experience, although we recommend three terms. After the theory is mastered, the student is taught business and legal forms, and is given speed exercises. In their turn come manifolding, mimeographing, letter filing, and in fact all information necessary in a first-class office.

TUITION.

Fall Term.

Shorthand	$6 00
Typewriting	4 00

Winter and Spring Terms, Each

Shorthand	$5 50
Typewriting	3 50
Shorthand and Typewriting together for the year,	$25 00

Other courses in proportion.

Summer School

June 5th to July 31st

Faculty

REV. J. KNOX MONTGOMERY, D. D., President.

HOWARD McDONALD, A, B., Professor of Greek and Philosophy, Muskingum College, Principal.
Natural Theology, Greek, Literature.

J. A. GRAY, A. M., Ph. D., Professor of Mathematics and Logic, Muskingum College. Mathematics, Logic.

C. J. MARSHALL, A. M., Professor of Physics, Muskingum College. Physics, Chemistry, Evidences of Christianity, Advanced Rhetoric.

DELLA LORIMER, B. S., Instructor in Latin, Muskingum College. Beginning Latin, Cicero, Caesar, Virgil.

JOHN H. HARDING, Principal of the High School, Cambridge, Ohio. Grammar, Arithmetic, Algebra.

MARGARET SUTHERLAND, Principal of the Normal school, Columbus, O. Pedagogy, Methods, Literature.

NELLIE A. SNOOK, Teacher's College, Columbia University. Methods for all Grades.

JULIAN GRAY, A. B., French.

MARY GRAHAM, B. S. German, Rhetoric.

R. M. MARLOWE, Supt. of Schools, New Concord, O. Algebra.

JAMES BAY, Supt. of Rich Hill Township Schools, Muskingum County, O. Literature.

E. B. CRANSTON, Supt. of Schools, Wilmot, Ohio. Geography.

JOHN G. LOWERY, Supt. of Schools, Frazeysburg, O. Pedagogy, Physiology, General History.

J. O. EAGLESON, Principal of High School, Quaker City, O. Algebra.

J. I. MOORE, Instructor in Schools, Senecaville, O. United States History.

CHARLES S. WENGERD, Director Conservatory of Music, Muskingum College. Piano, Voice, Teacher's Music, Chorus.

MABEL MOORE, B. M., Assistant in Piano.

ELBERT R. MOSES, B. Lit. Director Department of Oratory, Muskingum College. Oratory, Physical Culture, Reading.

HELEN McCREARY, Librarian.

DAVID CHALMERS WALLACE, Physical Director.

Summer School of 1908

The development of the summer school idea is one of the most remarkable features in the progress of education during the last decade. Summer schools have passed gradually from an earlier and spontaneous stage into certain types and organizations until they are a part, though a somewhat unrelated part, of our educational system. The fundamental demand which they have met is that for better trained teachers. The number of schools and the large enrollment indicate that they fill a real need.

The purpose of these summer schools is by no means met in the preparation of teachers for examinations. They offer means of advancement by providing efficient training. Many teachers are unable for financial and other reasons to take a year off from work to attend college and yet the teacher, who is not eager for higher training and the promotion which accompanies it, is hardly worthy to teach. The summer school is for the ambitious teacher who recognizes the inadequacy of the equipment obtained in the common school.

The leading professions offers better opportunities today than ever before for the competent teacher. Promotion is limited only by the qualifications of the teacher. The lucrative positions are awaiting you.

It is sometimes maintained that teachers should rest during the summer, that the long vacation is a time of sacred idleness not to be employed in intellectual labor of any kind. This is an erroneous idea, for, by a wise combination of recreation and study under proper regulation, it is possible to make summer school work genuinely recreative.

Muskingum College, recognizing the above mentioned need, has amply provided for it by conducting a summer term of seven weeks beginning usually about the middle of June. Hun-

dreds of teachers have availed themselves of this opportunity and have returned to their work with new inspiration obtained in the class room and from contact with other teachers. Scores have gone away to find that the county examinations have ceased to be the bugbear they formerly were. Many have received splendid promotions which they attribute directly to the work done in Muskingum College Summer School.

We have a large number of calls every year for teachers to fill vacancies in the country schools, in the graded schools, and in the High Schools. School Boards in search of teachers look to the summer schools first of all, because they realize the best teachers are to be found there. The men and women found at work during the summer have ambition and energy and are therefore endowed with the elements of success.

If you want to equip yourself for teaching, quickly, thoroughly and economically, if you want to increase your salary as a teacher, if you want to do work preparatory to a college degree, you cannot afford to spend the summer in idleness but should come to Muskingum.

The Summer School of 1908 will begin at 2:30 in the afternoon of June 15th. The increase in attendance last year over the previous year was 50 per cent. We are making plans for at least two hundred students this year and judging by present indications we are in no danger of being disapppointed. Look over the remainder of this bulletin and then decide whether you can afford to deprive yourself of the splendid opportunity herein offered.

THE TEACHING FORCE.

It will be noted that there are at least twenty teachers in the faculty of the Summer School. The force is adequate to give individual attention to each pupil; something that can not be said of the larger schools. More teachers will be added if necessary. At least seven of the teachers belong to the regular college faculty. The others have been chosen because of their sound scholarship and successful teaching experience. They possess

special fitness for the work assigned them.

So far as possible we have retained last year's force. The character of that force justifies such action.

Among those added, special reference should be made to Margaret Sutherland, Principal of the Normal School, Columbus, Ohio, and to Professors Wengerd and Moses, directors respectively of the School of Music and Oratory at Muskingum. Special reference should also be made to Prof. J. H. Harding of Cambridge, who will be at the head of the Common Branch Department.

THE COMMON BRANCHES.

The work in common branches, as stated above, will be under the efficient direction of Prof. J. H. Harding, Principal of the High School, Cambridge, Ohio. He needs no introduction to the teachers in this section of Ohio.

No man, in former years, contributed more than he to the success of Muskingum College Summer School.

He comes to us with additional prestige resulting from his successful work as teacher in Wooster University and in the Cambridge Schools.

He will be ably assisted by a corps of prominent educators selected from the counties adjacent to Muskingum. Look over the list and you will appreciate the truth of the above statement.

Preparing teachers for examinations is made a specialty, although scholarship and good teaching methods are not sacrificed in order to obtain this result.

There will be a sufficient number of classes in Arithmetic, Grammar and Literature to accommodate nicely those who desire to take these subjects. There will be excellent work offered in Pedagogy as well as instruction in methods for all grades.

METHODS.

Miss Nellie A. Snook and Miss Margaret Sutherland will have charge of the work in Methods.

Miss Snook's work with us last year in Primary Methods was of the first class order. This year she will be with us the full term and will instruct in methods for the first six grades. She has had thorough training together with a wide and successful experience.

Her training consists of work done in the Normal School at Lebanon, Ohio; in the Normal School at Valparaiso, Ind.; in the Kindergarten and Primary Training Schools of Columbus, O., in the Summer School at Chautauqua, N. Y., and she has been spending this year in Teachers' College, Columbia University. She is thoroughly equipped for high class instruction.

She is conversant with all the modern methods of instruction in primary work, in Reading, Language, Geography, Drawing, Number Work, Story Telling to Children, etc.

Miss Margaret Sutherland of Columbus, O., will be with us two weeks beginning probably with the fourth week of school. She is too well known to need an introduction to the teachers of Ohio. She has no superior in the state as an intructor in up-to-date methods. For many years she has been at the head of the Normal School of Columbus, O.

She will devote her time to Teachers' Psychology, Grammar Grade Methods and Lectures on Literature.

A model class will be organized among the children of the town. Instruction will be given, the teachers looking on and assisting

The work will be of great value to both city and county teachers.

ADVANCED WORK.

Any branch in the Preparatory or College Course will be taught, provided there is sufficient demand for it. Here are some of the courses offered: Beginning Latin, Caesar, Virgil, Greek, German, first and second year, French, Algebra, beginning and higher, Geometry, plane and solid, Trigonometry, Surveying and

Navigation, Logic, Geology, Physics, Chemistry, Rhetoric, Literature, for teachers as well as advanced courses, Advanced Rhetoric, Teachers' Psychology, Natural Theology, General History, English History. Other courses will be added to meet the demand. On the recommendation of the instructor in charge, credit will be given in any of the Preparatory College Courses of study for as many as three studies of the regular college course.

ATHLETICS

The Gymnasium will be open to all the students during the summer without extra charge. A thoroughly competent instructor has been provided and classes will be organized for both men and women.

Much enjoyment is derived from basket ball.

Inter-club games and games with the town boys are features of the work.

The young people of the town who are not taking work in the Summer School may obtain the privileges of the Gymnasium by the payment of a small fee.

One of the best baseball diamonds in the State affords ample opportunity for those who prefer this form of sport. A series of games will be played with neighboring teams. If you can play we need you. Tennis courts scattered about town may be used by the students.

TEACHERS' AGENCY

The second year's work of the teachers' agency was more remarkable even than the first in the constant demand for teachers on the part of School Boards. Our greatest difficulty was in supplying candidates for these positions. Many fine positions had to go begging for want of competent teachers. Time and again the Principal was compelled to write School Boards, telling them he had no available man or woman to offer. In spite of the fact that most of our students had secured satisfactory positions before coming to school, on our recommendation teachers were hired whose salaries aggregated some eight or ten thousand dollars.

We shall again have this department well organized and we shall keep in closer touch than ever with the vacancies. We do this work without charge and are glad to do it. We are accessible to the student at all times and we make his interests our own. If you desire a promotion of any sort we can be of material assistance to you. However, teachers must remember that they cannot expect to advance unless they prepare by vigorous effort for the better position. We equip the student and then have no difficulty in finding him the position.

BOARD AND ROOM.

Nearly all the students board in clubs, which is cheaper than private boarding.

They live just as well and the summer is made pleasanter socially by the acquaintanceships formed in the clubs. The Faculty of the Summer School will gladly arrange for rooms and boarding for students ahead of their arrival. Members of the Faculty will meet all trains when the students are arriving in order that all may be provided for.

Furnished rooms, per week.....50c to 75c
Cooking, per week.....60c to 75c

The cost of provisions is governed by the market price of food.

The cost during the summer varies from $1.20 to $1.40 per week. Not including tuition, the cost of the term need not exceed twenty dollars.

SPRING AND SUMMER TERMS.

Those students, who are compelled to make their way through college, will be glad to know that, by attending both the Spring and Summer Terms of the College, nearly two-thirds of the work of a college year can be completed.

Special courses will be arranged for those who, on account of their schools closing late, do not get in at the beginning of the Spring Term.

You can get satisfactory work even if you are a few weeks late.

LECTURE COURSE.

One of the delightful features of last year's Summer School was the lecture course of seven numbers. The numbers were profitable and entertaining. The course was somewhat of an experiment but was exceedingly well received.

This year we shall be able to judge better what the students want and we shall labor to meet that demand. We are not at this time able to announce the course in full but some of the very best platform lectures and entertainers of the day will be on the course. A small fee will be charged for the course to meet, partially, at least, the expenses.

In addition to the above, we shall enjoy from time to time the visits of prominent educators, who will address us at the chapel hour.

CONSERVATORY OF MUSIC

The Director, Mr. Wengerd, who has so efficiently directed the school through the past year, and who has placed it on a much higher and broader plane, will have charge of the Summer School of Music. He has had thorough training and experience as a teacher of both Piano and Voice.

Regular private instruction will be given in Piano and Voice and, in addition, classes will be organized in Harmony, Musical History, Public School Music and Chorus.

The course in Public School Music will include all that is essential for a teacher in the public schools to know about music. There will be Student Recitals, Term Recitals, Orchestra, Song and Piano Recitals by the teachers, etc. Miss Mabel Moore, a post-graduate student from Mr. Wengerd's advanced piano class, will be the assistant Piano teacher. She has had many years of teaching experience in Thyne Institute, Chase City, Va.

TUITION IN MUSIC

	1 per wk.	2 per wk.	3 per wk.
Voice with Mr. Wengerd	$7.00	$12.00	$16.00
Piano with Mr. Wengerd	6.00	12.00	16.00
Piano with Miss Moore	4.00	8.00	11.00

Harmony and Musical History (class)	4.00	
Public School Music, class of ten....		4.00
Public School Music, class of fifteen..		3.00
Public School Music, class of twenty..		2.00
Chorus Class, per term.....	1.00	

DEPARTMENT OF ORATORY.

Prof. Elbert R. Moses, who has already done such excellent work toward building up this department in Muskingum College will be the teacher in charge.

Mr. Moses has had experience as a teacher at Wooster University as well as at Muskingum. As a Reader and Entertainer he gives complete satisfaction wherever he goes.

TUITION IN ORATORY.

Three private lessons per week	$16.00
Two private lessons per week	12.00
One private lesson per week	6.00
Public School Reading, class of twenty	2.50
Public School Reading, class less than twenty	3.00
Practical Elocution	5.00
Extemporaneous Speaking	5.00

The classes above recite five times per week and credit is given for the work.

The tuition in School of Expression, including admission to all classes in English, Physical Culture and Oratory, $25.00

Write to the Director for special bulletin of information.

TUITION.

One College Study	$ 5.00
Two College Studies	8.00
Three College Studies	10.00
Common Branches	7.00
One College Study and Common Branches	9.00
Two College Studies and Common Branches	10.00

Students attending a part of the term will be charged a little higher rate than the above by the week.

Degrees Conferred in June 1907

BACHELOR OF ARTS.

Angeline Brown,
Norwood Jackson Calhoun,
Sara Susanna Giffen,
Martha Pearl McCampbell,
Otho Lindsey McKinney,
Neal A. Ranson,
Jay W. Ranson.

BACHELOR OF SCIENCE.

W. Merton Aikin,
Ross William Amspoker,
Charles Howard Anderson,
Mary Emma Bradley,
John Sturgus Bradley,
Ethel Bernice Duncan,
Leonard Stewart Galligher,
Mary Isabel Jones,
Paul Livingstone,
John Glenn Lowery,
Arnetta Belle McConagha,
Mary McCreary,
Eula McClenahan,
Charles Ellis Moore,
Harriet V. Milligan,
Mary Ruhamma Patterson,
Roy Alton Stephens,
Roy Elliott Tanner,
Halbert Miller Wilson,
Lena Wilson.

BACHELOR OF LITERATURE.

Winnifred Florence Hutton
Elbert Raymond Moses.

HONORARY.

Doctor of Divinity.

Rev. W. W. Lawrence,
Rev. R. A. Hutchison.

Doctor of Laws.

Rev. William H. French, D. D.

FOR PERSONAL PROPERTY.

I do give and bequeath to the Board of Trustees of Muskingum College the sum of.....dollars, (or.....shares of stock in the..... or bonds, as the case may be, setting forth particulary what it is that is bequeathed.)

FOR REAL ESTATE.

I do give, devise and bequeath to the Board of Trustees of Muskingum College and its successors, forever, all that lot or piece of land (describing the property with care.)

Special care should be taken that bequests be made according to the laws of the state governing them.

ANNUITIES.

Some are not in position to make donations outright to the College. For such the College makes provision whereby they may deed their property to the College and receive a annuity from the College during the remainder of their lives. In this way the donors are relieved of all care of the property and are assured an income as long as they live, and are further assured that their money will contiue to bless succeeding generations after they are gone.
